Saved from the trash crusher

This tiny newborn was saved by a cleaning lady who found him tied up in 2 refuse bags. The mother had just given birth and it's a miracle that he was found before the refuse crusher arrived.

Now safely wrapped up at SHEPHERD'S KEEP—a very real miracle baby who is stable and appears to be normal in every way. We think this is an amazing story of survival and hope for all.

Comings and goings...

Always busy and never a dull moment... With 4 new arrivals and 1 adoption, little faces come and go and recent visits from babies who went to the UK encouraged us and reminded us how important our work is. We are incredibly grateful to BIGSHOES Foundation and Dr Ambler for her visits and medical support—bless you and your team.

Volunteers

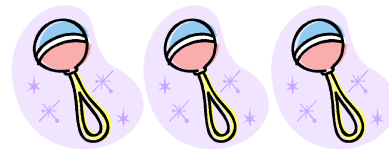

We have Gina from Mexico, Claire from the UK and Anne Marie from California arriving shortly as well as Rina who lives on the Bluff who has been incredibly faithful—thanks to you all—your extra helping hands are marvelous!

Beautiful quilts made by Ansie and her team of ladies from the Addington Quilters.

Urgent needs...

Infacare formula No's 1, 2 and 3
Infasoy formula No. 1
Purity Veg and Fruit
Snacks for babies
Nappies small, medium, large and Xlarge
Foam mattresses for playroom floor
Latex gloves—size large

Special thanks to each and every sponsor, donor and volunteer for making our work possible! You are investing in each baby's future.
